

**COMMERCIAL
ENERGY
AUDIT
PROGRAM**

HOW TO APPLY

Return the attached application form to Cory Plantenberg along with copies of your utility bills from the past twelve months. If you do not want to send in your utility bills please contact the Energy Division for a release form so your utility can provide energy consumption data. We must have consumption data if you want to participate.

Please contact Cory Plantenberg at the Energy Division (444-6771) for more information or to request a utility release form.

Business Name _____

Business Address _____

City _____

Phone No. _____

Contact Person _____

I would prefer my audit in:
November ____ February ____ March ____

Please send this application to the Energy Division along with copies of your utility bills by October 15, 1988.

ARE YOUR UTILITY BILLS HIGHER THAN YOU THINK THEY SHOULD BE?

**DO YOUR CUSTOMERS OR STAFF COMPLAIN ABOUT
YOUR BUILDING BEING TOO HOT OR COLD?**

**WOULD YOU LIKE TO KNOW WHAT QUESTIONS TO ASK WHEN PURCHASING
A NEW FURNACE OR MAKING LIGHTING IMPROVEMENTS?**

If you answered yes to these questions or need assistance to solve other energy problems, then the Commercial Energy Audit Program may be just what you need.

WHAT IS THE COMMERCIAL ENERGY AUDIT PROGRAM?

The Commercial Energy Audit Program is sponsored by the Montana Department of Natural Resources and Conservation, Energy Division. It is being offered to businesses that are members of the Downtown Associations in six Montana Communities. The Energy Division will provide a walk-through energy audit of your business to determine how you can make your building more energy efficient.

WHEN WILL THE AUDITS TAKE PLACE?

The audits will take place in November, February, and March. Please indicate on the request form the best month for your audit. Follow-up visits including a meeting with other association members and the local media will occur after all audits are completed in each community.

WHO IS ELIGIBLE TO RECEIVE AN AUDIT?

Any business that is a member of the Downtown Association and owns its own building or has a long-term lease and pays its own utility bills. Preference will be given to retail businesses but other businesses are welcome to apply.

HOW WILL THE PROGRAM WORK?

An engineer and/or energy staff person from the energy division will conduct a walk-through audit of your building to make suggestions on low-cost-no-cost improvements you can make to your building. If you need assistance beyond the scope of a walk-through audit we have contracted with a professional engineer who can make additional suggestions to improve the efficiency and comfort of your building. DNRC will work with you to obtain funding for energy improvements to your building.

HOW MUCH WILL AN AUDIT COST?

The walk-through audits and the services of the professional engineer are free.
